DETAILED ACTION

Claim Rejections - 35 USC § 103

1. Claims 1, 3-5, 7-13, 15-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nakagawa et al in view of Inamura et al as discussed in paragraph 1 of the last office action.

2. Applicant's arguments filed 9/21/01 have been fully considered but they are not persuasive.

In response to applicant's argument regarding the memory means, the secondary reference Inamura is being used to show the memory means for the print data. The primary reference, Nakagawa et al disclose memory means 21 wherein data is stored and also disclose that the user specifies/inputs the articles to be packaged which reads on inputting specified ones of packaging conditions. As discussed in the previous office action, the actual correlation data is a matter of design choice.

Nakagawa et al also disclose that the data stored 21 includes parameters for each kind of article to be packaged. This infers that the data stored is dependent upon the package or packaging conditions. Inherently, the data is dependent upon what is being packaged which reads on the packaging conditions as claimed.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3721

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
